Sequence 30, Application PC/TUS9930747

GENERAL INFORMATION:
APPLICANT: Boyce Thompson Institute for Plant Research at Cor
TITLE OF INVENTION: Orally Immunogenic Bacterial Enterotoxins
TITLE OF INVENTION: Transgenic Plants
FILE REFERENCE: 4868/85427
CURRENT APPLICATION NUMBER: PCT/US99/30747
CURRENT APPLICATION NUMBER: PCT/US99/30747
CURRENT FILING DATE: 1999-12-22
NUMBER OF SEQ ID NOS: 67
SOFTMARE: Patentin Ver. 2.1
SEQ ID NO 30
LENGTH: 40
TYPE: DNA
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          alignment_block:
